SHORT STORIES OF THE CITY

Tate-Coombs.—Homer Tate and Miss Emma Coombs, both of this city, were united in marriage last Friday night. The ceremony was performed by Bishop Lorenzo Hunsacker of the Mormon church.

Fined Ten Dollars.—John Estabrook, who was arrested Friday night charged with striking a Mexican on the head with a large rock and knocking him out, was convicted yesterday on an assault and battery charge in Justice Rawling's court and sentenced to pay a fine of \$10. Estabrook said he was drunk and didn't remember whether he made the assault or not.

A Quick Return.—Friday night Frank Smith was arrested in the tenderloin charged with beating up a woman of that district, and confined in jail yesterday morning. He secured his liberty on bond. An hour after his release he was caught in the act of slipping a bottle of whisky through the bars to prisoners and was again locked up.

Back Home.—Minnie Mae, who was released from the county jail about the middle of last week, was picked up yesterday drunk, down and out, and taken back to her old quarters. She will have a hearing in city court tomorrow morning and will undoubtedly be given a heavy sentence or probably a flog.

Licensed to Wed.—A marriage license was issued yesterday by Clerk Robertson to Joseph Harding and Miss Margaret Martin. The bride-elect, who is coming from England, was expected to reach the city on the delayed Valley train this morning. The wedding ceremony will probably be performed this afternoon. The marriage will be the culmination of a pretty little romance dating back to the youthful days in Great Britain of the happy pair.

Looking for Friend.—Regarding the sudden disappearance of John Haller from the Raby ranch near Safford about ten days ago, Joe Raby states that Haller was not in his debt, that he was his friend and if he could locate Haller he would gladly render him any assistance possible. Mr. Raby returned on Thursday from El Paso, where he had gone hoping to find Haller, but got no trace of him.

To Resume.—Jack Knighton, formerly deputy sheriff under Sheriff Thompson and now constable at Christmas, is a visitor in the city. Jack states that things are quiet at Christmas owing to the closing down of the Saddle Mountain Mining company. It is understood, however, that the company will resume operations in a short time.

ORDINANCE NO. 33 IS TO BE TESTED

Eight Women of the Tenderloin Balk and Are Placed Under Arrest

The validity of ordinance No. 33, providing for the promotion of health in the tenderloin, is to be tested in Justice Rawling's court on Tuesday afternoon.

The controversy, which has been going on ever since the adoption of the ordinance, was climaxed yesterday when eight women of the district were arrested on warrants charging them with carrying on their unholy occupation without first having secured a certificate of health. The accused women put up cash bonds in the sum of \$25 each for their appearance in court on Tuesday and were discharged from custody.

The feature of the ordinance that is causing trouble is that portion providing that the examination shall be made by the city health officer, who shall issue a certificate and collect a fee of not to exceed \$2.50 per examination, and the examinations shall be made every fifteen days. The women claim that they have a right to employ any reputable physician they may see fit and make their own arrangements regarding the price to be paid. Other phases of the ordinance they do not object to.

MR. PORTER HAS NOT SOLD CATTLE RANCH

It was reported yesterday that J. N. Porter, president of the First National bank and one of the largest cattlemen in the southwest, had disposed of a part of his cattle interests to Tom Armstrong for \$125,000. Mr. Porter, when seen last evening by a Silver Belt representative, stated that no such deal had been made and that there was little probability of one of this nature. Mr. Porter has been in the cattle business for a generation or more and likes it too well to get out of it.

Average Copper Prices
It is interesting to know that for nine months of 1927 the general average price received for copper by the producers has been 24.11 cents a pound, which is away ahead of the average price for 1926, which was around 19 cents, and on which the copper mines made big money.

Whatever price may be made for the last quarter of the year, the yearly average is bound to be well up to last year's figures, and the companies like the Calumet & Hecla, which have gone on maintaining production and marketing their output at the going price, will be found to have earned good money for shareholders.

Naturally the cutting down of production by Amalgamated and the Coleman mines will reduce the earnings of those properties, but it is an open question whether they will now make as much money as they would to have continued in full operation under high fuel costs and an extravagant wage scale.

SUNFISH TO KILL TYPHOID

Pittsburg Stocking Rivers, Hoping to Prevent Another Epidemic

PITTSBURG, Pa., October 19.—In order to prevent a typhoid fever epidemic from visiting Pittsburg next summer, as during the two preceding summers, the city imported 70,000 sunfish, which Dr. Edwards of the bureau of health, expects to do the work.

The fish are being placed in the streams of the parks, while a large number of them will also be put into the reservoirs. Another large batch is to be liberated in the Allegheny river.

Dr. Edwards declares that if there is anything that a sunfish loves it is typhoid fever germs.

SECRETARY TAFT MAKES A SIGNIFICANT REMARK

MANILA, October 19.—At a banquet in his honor in this city tonight Secretary Taft made a significant statement, while he was referring to the fact that he had already visited the Philippines three times, and expressed his intention to come here again. He said:

"I hope in another two years to visit Manila again, but then I probably will come as a private citizen."

WANTS TO INCREASE WIDTH OF THE CANAL

By Associated Press.
WASHINGTON, D. C., October 19.—Lieutenant H. H. Rousseau, a civil engineer of the navy and a member of the isthmian canal commission, arrived here from the isthmus and laid before Secretary Metcalf a proposition to increase the projected width of the canal, which is now planned at one hundred feet in the locks. The recommendation is based upon the rapid increase of the beam in naval construction since the canal plans were formed. Secretary Metcalf will take up the matter with the president as soon as possible.

DISCLAIMED BY M'CLEARY

Recommendations of Welsh Port of Call for Mail Steamers Not His

Acting Postmaster General McCleary yesterday sent a communication to the secretary of state denying that he had ever made a report to the postmaster general recommending Holyhead, Wales, as a port of call for mail steamers plying between Liverpool and New York.

His letter was in response to a communication from the department of state transmitting a letter from John L. Griffiths, American consul at Liverpool, relative to a report alleged to have been made to the postmaster general by Mr. McCleary, indorsing Holyhead as a port.
